Craft Beer

# ALEXANDER P. RUTLEDGE

## EXPERIENCE

### Associate Tester Acxiom, Arkansas & Remote 2019–Present

- Maintain and create test data mockers used by the Settlement/Batch team to improve end-to-end testing
- Spearheaded an effort to move the test data mockers onto a version control system to aid in synchronizing & reducing siloing (git)
- Test Lead over 3 technical projects which involved an in-depth analysis of the design for a clearer comprehension of the program and to competently direct people
- Write test cases and oversee testing for projects involving APIs, database calls, and batch file processing

### Intern Tester Acxiom, Arkansas 2019

- Tested programs on the Walmart Optimization Project to enhance workability and efficiency
- Trained in Settlement and Batch testing and gained a better understanding of the SQL and code used
- Learned about the Acxiom standard methodologies

### Capstone UALR, Arkansas 2019

- Developed a web application professors with nominal technical experience could use to update the school website employing a WYSIWYG style editor using JavaScript, PHP, and MySQL
- Collaborated with teammates through GitHub

## EDUCATION

### University of Arkansas at Little Rock May 2020

Major GPA 4.0

Bachelor of Science in Computer Science

## SKILLS

- Collaborate well with remote peers
- Database principles
- Self-motivated on projects
- Diagnose & fix simple IT issues
- Knowledge of Linux & Unix Commands
- Tomcat
- Git
- Assembly
- Visual Basic
- XML
